LOVE IT! GET IT!

Party season's over (boo!) but looking glam isn't - yay!

THE FAB FIVE

- 1 **Natalie Portman** kept her tresses tame at the premiere of her new movie, *Black Swan*, with MoroccanOil Luminous Hairspray, \$34.95, 1300 437 436.
- 2 For lashes that flirt all by themselves, try the new Australis Mega Lash Mascara, \$12.95, 1300 650 981. The formula thickens each eyelash and makes your peepers extra dramatic.
- 3 We hear **Lauren Conrad's** a huge fan of Maybelline New York, which got us wondering - does she like these cute-as-a-button lip balms as much as us? Maybelline New York Baby Lips, \$3.95, 1300 369 327.
- 4 Lip pencils can look slightly dry, but on the plus side they give a long-lasting stain and are super easy to apply. Now cult celebrity brand Nars (a fave of **Rachel Bilson**), has released a glossy alternative that never makes your lips look cracked. We love the crimson red hue of Velvet Gloss Lip Pencil in Baroque, \$50, 1800 007 844.
- 5 Kick-start your skin cells when you sleep with Estée Lauder's Time Zone Night Anti-Line/Wrinkle Creme, \$135, 1800 061 326. Wake up looking refreshed!
