**RRP:** \$17.95

For stockist information call 1800 181 040

Covergirl LashBlast Volume Blasting Mascara is a perfectly matched system that combines an advanced volumising brush and a unique volumising formula to deliver thick, full dramatic lashes. Spherical wax particles in the volumising formula act as spacers to blast lashes into a perfect, plump fan. And the brush ... it's big! It towers over the leading brush on the market and has 50% more bristles and a 25% bigger core than previous brushes of its kind, which means it

can hold more mascara to create a big bold look. Dr Sarah Vickery, Senior Scientist for Covergirl explains "Most mascaras dump a lot of product at the base and then you have to fix it. We call that a dump-and-fix model. Brush technology has been stagnant for years, so we said we would start with a new brush, a better brush. There's more touch points and even coverage on contact. All of the lashes are volumised in concert. Now there's a more uniform definition right away."
