

COVERGIRL®

FINE TUNE YOUR COVERAGE New CoverGirl TruBlend Microminerals

Fine tune your coverage with the complete **CoverGirl TruBlend Microminerals** range. Consisting of a **Foundation, Bronzer, Blush** and **Finishing Veil, CoverGirl TruBlend Microminerals** has the ability to gradually build your level of coverage for a more natural look.

CoverGirl TruBlend Microminerals Foundation

This foundation gives skin the freedom to breathe as it contains high concentration of good-for-you ingredients. The mineral-based powder provides lightweight coverage that doesn't clog pores. The ultra-fine formula easily builds from a sheer to full coverage without caking. Available in 5 shades – *Ivory, Classic Ivory, Creamy Natural, Buff Beige* and *Natural Beige*

CoverGirl TruBlend Microminerals Bronzer

The **TruBlend Microminerals Bronzer** gives your skin a natural, sun-kissed glow. Designed specifically to work with **TruBlend Microminerals Foundation** and **Blush**, it's another great option for creating a radiant, luminous look, or can be used on its own for

a radiant glow. Available in 1 shade – *Natural Bronze*

CoverGirl TruBlend Microminerals Blush

This gentle mineral blush can be worn alone, or layered over **TruBlend Microminerals Foundation**.

Available in 2 shades – *Natural Rose* and *Shimmering Sands*

CoverGirl TruBlend Microminerals Finishing Veil

Previously only available from expensive prestige brands, **TruBlend Microminerals Finishing Veil** gives skin an airbrushed look and helps create a flawless complexion. This is fantastic for evening out the skin tone, and improving skin texture and clarity. It also provides a sheer coverage so it's a great powder to set foundation. Use **TruBlend Microminerals Finishing Veil** as a finishing touch over **TruBlend Microminerals Foundation, Blush** or **Bronzer** for a flawless complexion. Available in 1 shade – *Translucent*

The **CoverGirl TruBlend Microminerals** range will keep your skin looking healthy, soft and natural, and the unique mineral properties are also good for your skin.

The range contains calcium silicate which provides radiance, and the superfine particles with balanced pigments prevent clumping allowing for buildable coverage. The longer brush allows consumers to intuitively use the product, while the sifter shape and brush shape enable full brush coverage for a more even application. All products in the **CoverGirl TruBlend Microminerals** range are oil and fragrance free, they are non-comedogenic (they won't clog pores), and are suitable for sensitive skin.

To complete your ideal beauty look, try the **CoverGirl TruBlend Microminerals** range in **August 2009**.
