JAN ON...

Cameron Diaz
"Oh my God! Cameron is the girl next door. I first worked with her after she ... had just received the script for *The Mask*. Her skin is perfect and she has no open pores. She has incredible eyes and I always frame them with a dark liner – smokey eyes and smudged liner to emphasise her blue eyes."

Drew Barrymore
"I love Drew's lips. She has this *Sleeping Beauty* thing about her. She's like a movie star from the '40s!"

Christina Applegate
"She is a very spiritual girl and very quiet. I have worked with her a lot. She is not a diva, just very spiritual, very kind and very funny."

Pamela Anderson
"Pamela has amazing lips and she knows how to use them –she is good at her pout. She is really funny and very smart. Beauty and intelligence together are a deadly combination."

Sharon Stone
"Sharon (below) is breathtaking and very smart. What I love about her is her ability to listen. She is a good friend and I can always count on her. She totally gives me creative freedom when I work with her. Her best feature is her amazing body! I love her eyebrows – I darken them, I lighten them, I make them fuller and longer and it changes and frames her entire eye. And, of course, her humour – she doesn't take herself seriously. We can laugh and giggle."
