GET LAUREN'S LOOK

Three steps to achieving LC's standout style

1 Set your base colour by shading the eyelid area with a matte pale-pink shadow. Then create Lauren's classic winged eyes by using a liquid liner pen (A) and thickly dragging it along the top lash line. Once you reach the end of the eye, create a small wing with a flick of your wrist.

2 Create definition by contouring with a bronzer (B), then highlighting the cheekbones by layering on a cream illuminator (C).

3 Feather the lips with a lip pencil, then use a brush loaded with a deep raspberry shade of lipstick (D) to evenly apply colour.
