Autumn/Winter 09 MAKEUP TRENDS

Without a doubt one of the strongest trends for Autumn Winter 2009 is the return of the blue eye. Runways went blue - models were wearing blue clothes, they had blue nails and blue eye makeup. Blue is the hottest colour of the season and **Ultra3** is on trend with their **Blue Moon Collection** for eyes and nails.

Since the 80's, blue eye shadow has been a colour of caution but the modern blue eye look is super stylish and cool in 2009. An easy look for people new at makeup or those wanting to experiment with this season's hottest colour. Wear blue eye shadow with toned down lips and cheekbones to ensure the overall look is modern.

The silky smooth texture of the **Ultra 3 Eyeshadow palette 'Once in a Blue Moon'** means that colours can be built up and won't be too intense from the start. The palette includes 4 shades including a soft powder blue, denim blue, wisteria and a deep marine blue. Start off with one of the lighter shades as a base, add a highlighter shade and finish with the deep marine blue for definition. A slick coat of Ultra 3 Mascara in black will finish the look.

As Australia's no.1 nail polish brand, Ultra3 offers a range of blue nail shades to compliment the look - *Hollywood, Midnight, Jelly Bean and Blue Glitter* offer an option for your nails in bold and interesting ways.
